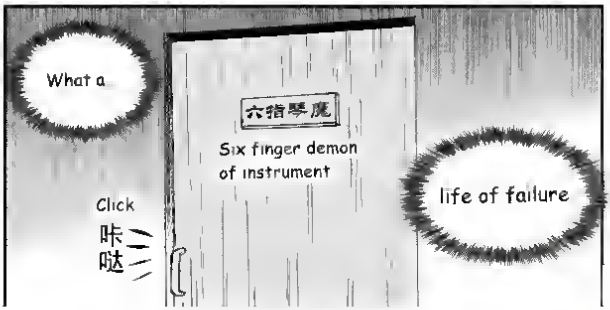
T/N:
Since this chapter, I don't think I'll add any more fan art at the end, because most fan arts are light mooded but the chapters are, as you can tell, not. You can always find them on the original website if you like.



In addition there's another SP chapter before this one, but I don't feel like translating it. Just like other SPs it has nothing to do with main story so whatever. Maybe I'll pick it up in the future. Or you'll have already learned Chinese before that.

Next Chapter: Drunk Fight
